

# PDF Accessibility Checker

eSSENTIAL  
ACCESSIBILITY.

The fastest, most effective tool to test  
PDFs for accessibility

Inaccessible PDFs introduce usability barriers for people with disabilities. This can impact critical business processes and expose organizations to legal risk.

The PDF Accessibility Checker, eSSENTIAL Accessibility's PDF testing capability, lets you automatically discover PDFs across your websites, perform an automated scan at any time, get an instant snapshot of a document's accessibility status, and request remediation with a single click.

## Mitigate your risk by discovering inaccessible PDFs

Ensure every aspect of your digital experience is accessible by quickly finding, testing, and remediating any inaccessible PDFs.

## Conveniently test PDFs anytime

Improve your digital experiences and reduce your risk by identifying and removing accessibility errors in your PDFs before publishing.

## Leverage detailed reports to drive decision-making

Prioritize your remediation efforts with detailed dashboards and comprehensive reporting.

## Streamline work within one multifaceted platform

The PDF Accessibility Checker is integrated into the eA Platform, giving users access to a full suite of end-to-end testing capabilities in one centralized location.

## Discover:

Find PDFs across your websites using automated scanning in the eA Platform.

## Test:

Select the documents you want to test, or upload new PDFs for testing.

## Report:

Access, maintain, and export a record of your tested and remediated PDFs to analyze trends.

## Prioritize:

Based on detailed reporting, prioritize fixing PDFs with a high number of accessibility issues.

## Remediate:

Receive fully remediated PDFs within the eA Platform by easily requesting PDF remediation on any of your documents.
